

# Double Cone Trailer

## 6000 Gallons

## Double Cone Trailer

The DOT Double Cone trailer offers a perfect storage solution customized for oil field contractors, hunting lodges, and other businesses in need of portable storage for fresh, gray, or black water in remote areas. Its adaptable design efficiently meets diverse requirements.

Using the trailer is simple: transport it empty to your chosen site, then smoothly lower the frame to the ground using the hand-operated hydraulic pump. Load the trailer with your desired fluid effortlessly. It's crucial to observe that EPA regulations allow only one type of water per trailer, ensuring compliance with safety standards.

## Features

- Dual 3,000 Gallon Cone Tanks
- DOT Approved Trailer
- Lights
- Electric Brakes
- Fenders
- 2" or 3" Plumbing
- Optional 2" Transfer Pump

## Benefits

- Versatile solution for oil fields, hunting lodges, and remote businesses
- Easy operation with hand-operated hydraulic pump
- Compliance with EPA regulations for safety
- Portable design for remote settings
