

WATER
TRAILER

1025 gallon
Potable Water/
Water Distribution

**Images shown may include optional features. Actual product appearance may vary based on selected configurations.*

Designed to support remote job sites, mobile offices, and RV setups, the 1,025 Gallon Water Distribution Trailer provides pressurized potable water delivery through an electric pump system. Built on a DOT-approved trailer, it features an algae-resistant black tank, 115V pump with freeze protection to ensure year-round performance. With four water outlets and 22 GPM flow, this trailer keeps teams hydrated and operations running no matter the weather.

FEATURES

- 1,025-gallon algae-resistant tank
- ¾ HP, 115V on-demand pump
- Four water outlets for distribution
- Insulated freeze protection system
- DOT-approved trailer with surge brakes

BENEFITS

- Pressurized flow for multiple units
- Delivers clean water safely
- Freeze-ready, year-round use
- Algae-resistant for long storage
- Fast setup, DOT compliant
